Summary

Full Stack Web & Android Developer with experience in building scalable projects and freelance solutions. Skilled in the MERN stack with exposure to industry-level applications. Experienced in working with teams, leading projects, and continuously exploring new technologies to grow and adapt.

Skills

Languages: Java, JavaScript, PHP, C, C++, Python, GoLang, HTML, CSS
Frameworks & Libraries: React.js, Express.js, Node.js, Flask, Bootstrap, Tailwind CSS, Flutter
Tools & Platforms: Git, GitHub, Docker
Databases: MySQL, MongoDB, Firebase
Operating Systems: Linux, Windows

Experience

Frontend Developer - Intern   *Kolhapur,MH*
GSP Technologies   *July 2024 – Dec 2024*

- Built a fully responsive hotel website using React.js, with booking system, payment integration, and admin panel. Collaborated with backend team (Spring Boot) to deliver a production-ready application.

Web Development - Intern   *Kolhapur,MH*
Revolution IT Solutions   *July 2022 – Aug 2022*

- During my diploma, I interned as a frontend developer, acquiring hands-on experience in web development. Utilized HTML, CSS, JavaScript, and Bootstrap to contribute to various projects.

Projects

NinjaNest: Student Accommodation Platform   *Link* ↗
MongoDB, Express.js, React.js, Node.js

- Designed a student-focused rental platform with verified landlords, fair pricing, smart rent prediction, and roommate matching for a transparent, hassle-free renting experience.
- Built landlord and tenant dashboards with property lifecycle management, rent payments, payment history tracking, maintenance requests, reviews, and notifications.

CoLab: Project Management Tool - MongoDB, Express.js , React.js , Node.js   *Link* ↗

- Built a project management tool for remote teams with features like project creation, task assignment, Kanban tracking, team chat, and video conferencing.
- Integrated GitHub repository tracking with commit history and contribution heatmap, enhancing real-time collaboration experience.

Voyago: Android Application - Java, Firebase   *Link* ↗

- Developed a MakeMyTrip-like travel app with features such as browsing destinations, booking trips, payment gateway integration, and user authentication.
- Collaborated with a teammate, gaining experience in managing large-scale databases and improving teamwork skills.

Education

D.Y.Patil College of Engineering & Technology, Kolhapur   *August 2023 – Present*
B.Tech in Computer Science & Engineering   *CGPA: 8.4 / 10*
Sanjay Ghodawat Polytechnic, Atigre   *August 2020 – June 2023*
Diploma in Computer Science Engineering   *Percentage: 88.57%*

Achievements

Top 5 Finalist – Hackera 2k24: Ranked among the top 5 out of 60+ teams for developing a project management web app during a 48-hour national-level hackathon at Sanjay Ghodawat University.

3rd Rank – CodePeak 2k23: Secured 3rd rank in an open-source contribution competition hosted by IIT Guwahati and IIT Patna, actively contributing to various GitHub projects.
